PART No. RCVCH - suits all 'RolaCases' plastic organizer cases, can be installed on the following products:

- All perforated areas of the RolaCase end panels (for quick install)
- All perforated areas of the RolaCase partitions or cargo barriers (for quick install)
- Universally mountable anywhere in a vertical position (manual measuring and drilling required)

TOOLS REQUIRED:

⚠ ATTENTION

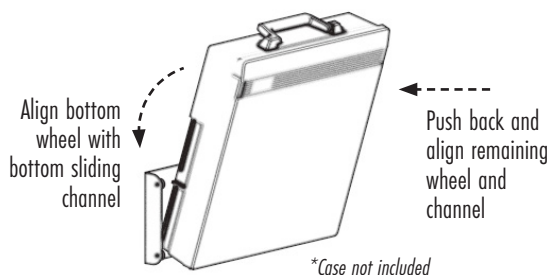

IMAGES USED IN THIS GUIDE MAY VARY SLIGHTLY DEPENDING ON YOUR MODEL

The RolaCase Vertical Case Holder that suits the perforated pattern on our product range is made up of the following part that needs to be located and affixed with the hardware provided:

1 Vertical Case Holder

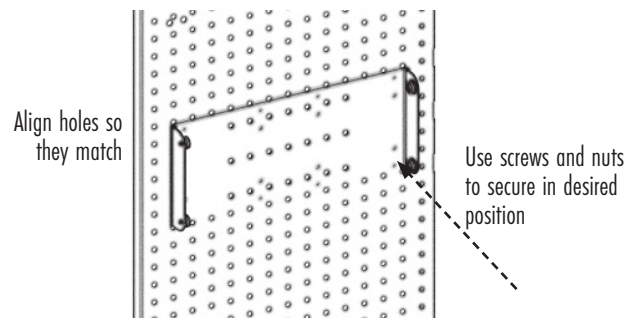

A Begin by locating the Vertical Case Holder and sliding in a RolaCase into the runners (cases sold separately)

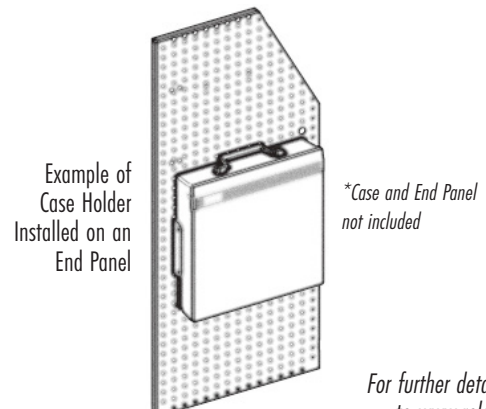

B Trial position the combined Case and Case Holder in an ideal position anywhere on the perforated grid areas of our product range and take note of the location, this will most commonly be either on our End Panels or Lower Partitions / Cargo Barriers

C Remove the Case from the Case Holder then using the hardware supplied, secure the holder to your desired position easily within the perforated grid pattern

D Alternatively, remove the Case from the Case Holder then using the hardware supplied or alternative appropriate fasteners, secure the holder to any vertical location of your choice. We recommend the use of a Spirit Level to ensure correct fitment
